**Resolution No. 335 to Exceed Revenue Limit on Non-Recurring Basis
(Debt Service Payments on Energy Efficiency Measures)
- Tremper High School Project**

At the April 25, 2016, regular School Board meeting, the Board approved a proposal to implement a Phase II series of energy efficiency projects using the energy efficiency revenue limit exemption based on the provisions in 2011 Wisconsin Act 32 and subsequent legislation.

Phase II consists of a series of projects as detailed in the May 10, 2016, report presented by Mr. Patrick Finnemore, Director of Facilities. These projects are being performed over a six year time period and the administration is working closely with the District financial advisor, PMA Securities, Inc. to time the issuance of debt to align with project spending needs.

The first bond sale was unanimously approved by the Board on June 28, 2016, in the amount of \$28,495,000 to provide the necessary funds to complete the first project

Administrative Recommendation

The attached resolutions to exceed the revenue limit for 20 years, on a non-recurring basis, are for the purpose of servicing debt issued to finance Projects 2 and 3 of the previously approved Energy Efficiency Projects in Phase II.

Administration requests that the Board approve Resolution No. 334 to Exceed Revenue Limit on Non-Recurring Basis (Debt Service Payments on Energy Efficiency Measures) - Bradford High School Project and Resolution No. 335 to Exceed Revenue Limit on Non-Recurring Basis (Debt Service Payments on Energy Efficiency Measures) - Tremper High School Project.

RESOLUTION NO. 335 TO EXCEED REVENUE LIMIT ON A NON-RECURRING BASIS

Debt Service Payments on Energy Efficiency Measures TREMPER HIGH SCHOOL PROJECT

Be it resolved that the School Board of the Kenosha School District No. 1 is exercising its taxing authority under s. 121.91 (4) (o), Wis. Stats., on or before October 1st, to exceed the revenue limit on a non recurring basis by an amount the District will spend on principal and interest payments for debt issued for new energy efficiency measures and energy efficiency products for the 2017-18 school year.

The projects are financed with \$30,140,000 G.O. Corporate Bonds and \$16,355,000 State Lo \$16,355,000 of 1 Tfb

The amounts to be expended, which represent the portion of those debt Project, are shown below.

2036	2037	\$1,724,365

After review of the recommendations report per s. 66.0133 (2) (b), Stats., the District has determined that the \$32,156,617 it would spend on energy efficiency projects recommended in the report is not likely to exceed the amount to be saved in total utility costs of \$1,399,259 and non utility costs of \$32,105,672 over the remaining 40 year useful life of the facility to which the measures apply.

The Board has entered into a 20 year performance contract under s. 66.0133, Stats., with Nexus Solutions, LLC for a project to implement the following energy efficiency measures or to purchase energy efficiency products. The Board has also identified the following cost recovery performance indicators to measure energy savings and/or operational savings for each measure or product, including the timeline for cost recovery:
